BACH ORIGINAL FLOWER REMEDIES

Change your life, enhance your career, change attitudes around you; become a Bach Foundation Registered Practitioner

In the 1920s and 30s, a noted homeopath and bacteriologist called Dr. Edward Bach discovered a complete system of 38 flower remedies. The remedies help us find the positive side of ourselves, breaking the barriers that stop us from growing and from living healthy lives. Whatever is in our way – fear, despondency, uncertainty – finds a solution in the system of 38 remedies.

Many years later, that education work continues. Nelsons have developed the Bach International Education Programme to help you learn more about the remedies. The Bach Centre approves the courses as meeting the requirements of its Bach Foundation education and registration programme. To be approved, a course has to meet stringent criteria that govern its presentation, content and approach.

This leaflet will tell you how you can learn about the remedies, and how you can help and educate others.

What Courses are available?

All our London-based courses are held at Nelsons' Homeopathic Pharmacy, 73 Duke St, London W1K 5BY. Alternatively, licensed independent trainers based around the UK offer Bach Centre – approved courses at different levels, times, dates, venues and fees are set locally. Visit www.bachremedies.co.uk or see overleaf for contact details of trainers in your area.

Nelsons offer three levels of training:

- Level 1 – Introductory course

Introduces students to each of the 38 remedies and to the philosophy of self-help and simplicity that underpins the system. You will start to select remedies for yourself and see how they fit in with your daily life, and learn basics such as how and when to take them. Level 1 is the essential foundation for a complete understanding of Dr. Bach's work. There are no pre-requisites for attending a Level 1 course.

- Level 2 – Advanced course

Offers a deeper exploration of the way the remedies relate to your life goals and your basic personality, and be guided through the subtle distinctions that can be made between closely related remedies. Level 2 is a remedy master-class, and provides all the tools you need to gain a full understanding of the subject. Level 1 is a pre-requisite for this course.

- Level 3 – Practitioner training

Aimed at current and intending health workers and complementary practitioners, level 3 gives students the skills needed to use the 38 remedies as part of a professional natural health practice. Level 3 helps you develop and enhance relevant listening and consultation skills and heighten your personal and professional awareness, all in the context of an advanced remedy workshop.

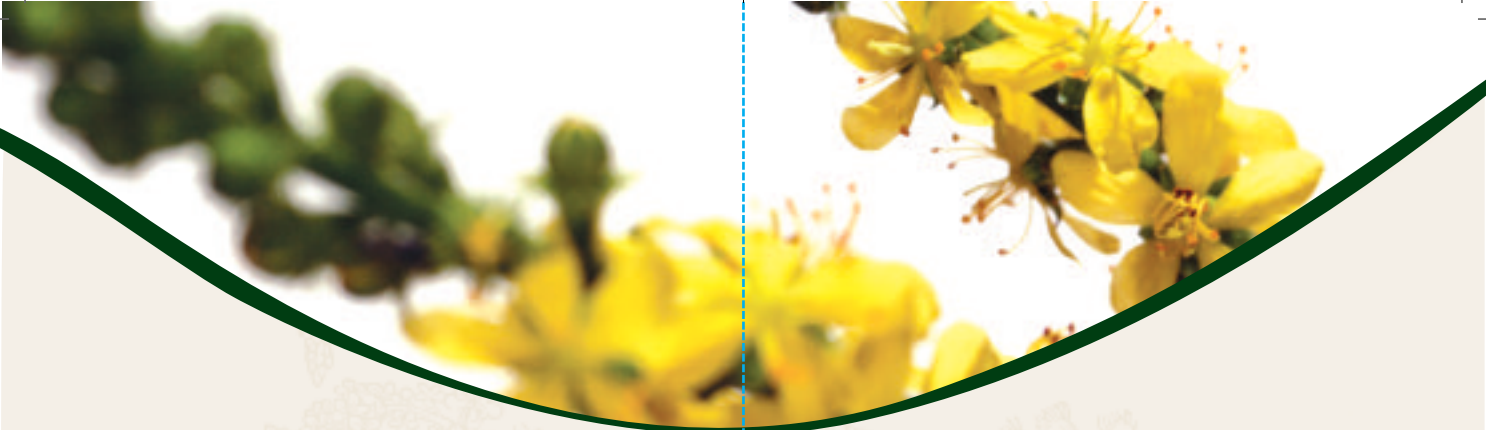

As part of Level 3 you will be guided through the Dr. Edward Bach Foundation Code of Practice and will complete a three stage assessment programme designed to test your ability to work with the remedies to the highest standards. Level 3 stresses the practitioner's role as a mentor and teacher of the system, that you can pass on your skills and knowledge to your clients. Levels 1 and 2 are pre-requisites for this course.

Guild of Complementary Practitioners

Nelsons Level 1 and 2 courses are recognised by the Guild of Complementary Practitioners and attract CPD credits (6 credits for Level 1, and 10 for Level 2).

Certificates

You will receive attendance certificates for Levels 1 and 2 at the end of the second day of each course. The level 3 certificate is sent out following successful completion of the assessment papers and case studies.
